Warbirds Canada is pleased to announce
EXEMPTIONS 1&2

[OTTAWA, ONTARIO, October 7th—]

WARBIRDS CANADA is pleased to announce the culmination of over a year's worth of work, together with a new-found collaborative work approach with Transport Canada. We are pleased to announce the publication of two new exemptions to the Canadian Aviation Regulations specific for warbirds operators.

These Exemptions were a collaborative effort between Warbirds Canada and Transport Canada on behalf of all warbird operators/owners nationwide. Work continues on several more exemptions, and it is our genuine hope to be able to make further announcement's in the near future.

The Exemptions:

I. EXEMPTION FROM PARAGRAPH 602.60(1)(e), SUBSECTION 605.04(1), PARAGRAPH 605.18(h) AND SUBSECTION 605.36(1) OF THE CANADIAN AVIATION REGULATIONS

The purpose of this exemption is to eliminate the regulatory requirement, to have on board Warbird airplanes certain equipment normally required by the Canadian Aviation Regulation, notably:

1. a hand-held fire extinguisher;

2. a hard copy of the entire aircraft flight manual;
3. an alternative source of static pressure; and
4. an altitude alerting system or device.

II. EXEMPTION FROM PARAGRAPH 604.03(1)(b) OF THE CANADIAN AVIATION REGULATIONS

The purpose of this exemption is to eliminate the regulatory requirement from Canadian operators of privately registered ex-military turbine powered airplanes (including turbo-jet and turbo-propeller) to hold a Private Operator Registration Document.

These exemptions will benefit both Warbird Operator's and the Canadian public. Operators will benefit from a decrease in regulatory requirements which were not designed for their types of operation, whilst the Canadian public will benefit from a decrease in the Government resources required to monitor these regulatory requirements, all the while maintaining the same level of safety currently offered to the flying public.

Full text of these exemption can be found at www.warbirdscanada.com

Quotes

"Through a continued involvement of our membership, and their infinite expertise in aviation, you can count on Warbirds Canada to continue to work collaboratively with Transport Canada, for the safe operation and continued promotion of ex-military aircraft in Canada" said Daniel Fortin, President.

About Warbirds Canada and Our MISSION:

Warbirds Canada is a federally-incorporated Not-for-Profit association, headquartered in Ontario. The association's mission is to promote and preserve the safe operation, display, and enjoyment of ex-military warbird and vintage aircraft in Canada. Warbirds Canada strives to function as a national resource for information related to the maintenance and safe operation of our aircraft. Through our website, our national officers, and our board of directors, we link member operators, pilots and maintainers en masse, speaking with a unified-voice on the issues and concerns affecting warbird operators. It is our objective in the near future to provide training opportunities and to organize events that provide resources and foster camaraderie.
